A tall, slender oil rig derrick stands vertically against a bright blue sky filled with large, white, puffy clouds. The sun is positioned directly behind the top of the derrick, creating a strong lens flare effect. The derrick is a complex of metal lattice and cables. A yellow platform or basket is visible on one of the upper sections. At the base of the derrick, there is a white rectangular box with the "PetroRigs" logo in black and orange text. The foreground shows some industrial equipment and structures, including a large white storage tank and various pipes and cranes, all in shadow.

An aerial photograph of an industrial site, likely an oil or gas rig. A large, bright red rectangular component, possibly a part of a drilling rig, is the central focus. It is positioned diagonally across the frame. To its left, a large bundle of dark, cylindrical objects, likely drill pipes or rods, is neatly stacked. The ground is a mix of light-colored dirt and dark, possibly wet or paved areas. In the background, some orange safety cones and other industrial structures are visible. The overall scene is brightly lit, suggesting daylight.

A photograph of an offshore oil rig. In the foreground, there is a large piece of industrial equipment, possibly a pump or compressor, with a blue motor and a metal cage. It is mounted on a platform. In the background, there are more complex structures, including pipes, valves, and a red fire extinguisher. The overall scene is industrial and metallic.

A photograph of industrial equipment, likely a pump or motor assembly, with a blue electric motor and a large, tangled mass of brown cables. The equipment is situated outdoors on a dirt ground. In the background, there are yellow safety railings and other industrial structures. The image is watermarked with the website address "www.PetroRigs.com" at the top and bottom.
