A photograph of a large industrial engine, possibly a generator or pump, in a confined space. The engine is yellow and has a large circular cover on the right side. It is surrounded by various pipes, hoses, and mechanical components. The background shows more of the engine and some structural elements of the facility. A watermark is visible across the center of the image.

A photograph of an offshore oil rig deck. In the foreground, there's a yellow safety railing and a coiled red and yellow hose on the dark, gravelly deck. To the left, a large white satellite dish is mounted on a structure. In the center, a white rectangular storage container or equipment housing is visible. To the right, more complex machinery, including pipes, valves, and a blue tank, is part of the rig's infrastructure. The background shows a vast green landscape with some trees and a clear blue sky. A watermark 'www.PetroRigs.com' is overlaid in the center of the image.
