A white industrial container, possibly a generator or control unit, is shown on an offshore platform. The container has a corrugated metal door on the left side and a solid white door on the right. A warning sign is posted on the corrugated metal door. The container is situated on a platform with yellow safety railings and a red fire extinguisher visible on the roof. The background is a clear blue sky.

[www.PetroRigs.com](http://www.PetroRigs.com)

A photograph of an offshore oil rig platform. The scene is dominated by white, corrugated metal structures, likely storage containers or equipment enclosures. Yellow safety railings are visible on the upper levels. A red pipe runs horizontally across the middle ground. The sky is clear and blue. The text 'www.PetroRigs.com' is overlaid in the center.

[www.PetroRigs.com](http://www.PetroRigs.com)

A blue industrial motor and pump assembly is shown. The motor is mounted on a blue base and has a large, circular, ribbed cooling fan on its front. To the right of the motor is a blue pump unit with various pipes and fittings. The entire assembly is mounted on a metal base with a diamond plate pattern. A yellow tag is attached to a pipe on the left side. The background is a plain, light-colored wall.

A white, rectangular industrial control cabinet stands on a gravel surface. The cabinet has two doors on the left side with silver handles. On top of the cabinet, there are two outdoor light fixtures, a red emergency stop button, and some electrical wiring. A red fire extinguisher is mounted on the right side of the cabinet. In the background, there is a yellow metal structure, possibly a crane or part of a rig, and a clear blue sky. The ground is covered in gravel and dirt.

A photograph of an industrial site, likely an oil or gas wellhead. In the foreground, a worker wearing a white hard hat, a white t-shirt, and blue jeans is seen from the back, operating a large piece of machinery. The machinery features a prominent white horizontal pipe that curves downwards. The entire structure is supported by a white metal frame. Yellow safety railings are visible in the foreground and middle ground. The background shows a vast, open, arid landscape under a clear blue sky, with some distant structures and equipment. A large watermark is overlaid on the center of the image.

The image shows a complex industrial setup on a rig deck. On the left, there is a large white cabinet-like structure with a door and a handle. Below it, a pump or motor is connected to a network of pipes and hoses. To the right, a vertical assembly of pipes and valves is prominent, featuring a large spherical vessel at the top and various gauges and fittings. The background shows the structural elements of the rig, including beams and a ceiling with lights. A watermark is overlaid in the center of the image.

A large, blue, cylindrical industrial tank is the central focus of the image. It is supported by a metal frame and has a large, circular access panel on its right side with a handle. The tank is surrounded by a complex network of dark-colored pipes, valves, and structural supports. The setting appears to be an industrial facility with a concrete floor and a white wall in the background. The lighting is bright, highlighting the metallic surfaces.

A photograph of a red industrial component, possibly a valve or connector, mounted on a white metal surface. The component has a circular opening on top and several ports on the side. Thick steel cables are connected to the side ports. A yellow ladder is visible in the background. The scene is brightly lit, casting shadows on the white surface.

[www.PetroRigs.com](http://www.PetroRigs.com)

A photograph of an industrial platform, likely on an offshore oil rig. In the center, a blue electric motor is mounted on a blue base. To its right, a green electrical control cabinet is visible. A large coil of black cable hangs from the motor area. In the foreground, a yellow metal walkway with rope railings leads towards the equipment. The platform is surrounded by a white metal railing. In the background, a vast, flat, open landscape under a clear sky is visible, with some distant structures and a mountain range on the horizon. The text 'www.PetroRigs.com' is overlaid in white on the image.

An industrial site featuring several large white storage tanks or containers. The tanks are arranged in a row, with a prominent one in the center. They are surrounded by yellow metal railings and walkways. In the background, there are more industrial structures, including what appears to be a distillation column or similar vertical vessel. The ground is a mix of dirt and gravel, with some concrete slabs. The sky is clear and blue. A watermark is overlaid on the image.
