

## Certificate of Conformity

This document is to certify that the below listed Eddy Current Device or Component was manufactured by *National Oilwell Varco* of Sugar Land, Texas U.S.A. to conform with FACTORY MUTUAL RESEARCH Certification of the device for operation in a Hazardous Area as defined above. Any attempt to open, modify, or otherwise change component design or operation will invalidate the Hazardous Area Certification.

Each Eddy Current Brake produced by *National Oilwell Varco* is manufactured to conform to procedures, tests, materials, and manufacturing processes which have been reviewed by FACTORY MUTUAL RESEARCH CORPORATION and found to conform to their Explosion-Proof Electrical Equipment General Requirements, Class Number 3615. This Explosion-Proof Classification is for Class I, Division 1, Group C & D Hazardous Locations as defined by the National Electrical Code, ANSI/NFPA-70. This term is synonymous with "Flameproof Enclosure" as defined by the International Electrotechnical Commission (IEC) Publication 79-0. Further, to insure *National Oilwell Varco* compliance with these established Standards, FACTORY MUTUAL RESEARCH CORPORATION audits current design, drawing revision, manufacturing processes, and quality control on a minimum of an annual basis. This adherence to required standards has earned *National Oilwell Varco* the Approval No. OF7A4.AE\* & J.I.OG7A0.AE. This Hazardous Location Certification will remain in effect for each Eddy Current Brake as long as Operating and Maintenance Procedures, as defined in the appropriate *National Oilwell Varco* Operation Manual, are strictly followed, and only *National Oilwell Varco* Certified Parts are utilized in repairs and maintenance. These parts, or approved equal parts, must have Certification Papers, or written pre-approval. Parts and service are available only from *National Oilwell Varco* or its Authorized Service Centers. Failure to follow these required procedures by the Brake Owner/Utilizer will render the FACTORY MUTUAL RESEARCH CORPORATION Hazardous Certification of their Brake to be invalid.

NOTE: All BAYLOR Eddy Current Products are covered by one or more of the following FACTORY MUTUAL Approval Numbers:

J.I. OK0A4.AE    J.I. OW0A5.AE    J.I. OK7A1.AE    J.I. 1F5A0.AE    J.I.OG7A0.AE    J.I.OF7A4.AE
