7002B

NOV ROLLIGON

MANUFACTURED BY: 6740 HWY 30 ANDERSON, TX 77830
PHONE: 936.873.2600

DATE OF MANUFACTURE: 7/2011

GVWR 45359 KG (100000 lb.)

GAWR ALL AXLES 10206 KG (22500 lb.)

TIRES 11R225
RIMS 22.5 X 8.25

COLD TIRE INFLATION 724 kPa (105 PSI)

THIS VEHICLE CONFORMS TO ALL APPLICABLE U.S. FEDERAL MOTOR VEHICLE
SAFETY STANDARDS IN EFFECT ON THE DATE OF MANUFACTURE SHOWN ABOVE.

VIN: 1R9SO4437AA494093

TYPE: TRAILER

www.PetroRigs.com

www.PetroRigs.com

The image shows a large, red industrial robotic arm, likely a welding or cutting head, mounted on a truck chassis. The arm is positioned horizontally, with its base and joints visible. A silver, rectangular control box is attached to the side of the arm. The truck is parked on a gravel surface, and there is some green grass and weeds in the foreground. In the background, other industrial equipment and structures are visible under a clear blue sky. The sun is shining brightly, creating a lens flare effect. The text "www.PetroRigs.com" is overlaid in the center of the image.

A close-up photograph of industrial machinery, likely a hydraulic system. The image features several red components, including a large red valve or actuator in the center. Black hydraulic hoses are connected to these components, with some hoses having white labels that read "7002-FC-24" and "7002". A silver, diamond-plate metal plate is visible in the foreground. The background shows more industrial structures and a bright, possibly outdoor, environment.

www.PetroRigs.com

A close-up photograph of an offshore oil rig. In the foreground, a large, polished metal block with several circular ports is visible. To its right, a red cylindrical component is part of the machinery. In the background, a red derrick structure rises against a clear blue sky. A black cable runs across the scene. The overall scene depicts industrial equipment in an offshore setting.

www.PetroRigs.com

A photograph of an industrial rig, likely for oil or gas extraction. The image shows a large red pipe in the foreground, connected to a complex system of red hydraulic cylinders and valves. The equipment is mounted on a metal frame. In the background, there are more industrial structures and a gravel path. The text "www.PetroRigs.com" is overlaid in the center.

www.PetroRigs.com

www.PetroRigs.com

www.PetroRigs.com

The image shows a perspective view down a narrow alleyway between two large industrial vehicles, likely oil rigs. On the left, a red-painted metal structure with various pipes and valves is visible. On the right, the front of a large truck with a complex engine and various mechanical components is shown. The ground is a light-colored gravel or dirt surface. The sky is clear and blue. A watermark is centered in the image.

A high-angle photograph of an offshore oil rig's maintenance area. A large, rusted metal structure, possibly a wellhead or platform, is the central focus. A red, curved pipe or hose is visible on the right side. A metal grate is on the ground near the base of the structure. In the background, a white truck with multiple wheels is parked on a flat surface. The scene is brightly lit, casting shadows. The text "www.PetroRigs.com" is overlaid in the center.

A photograph of a red industrial valve assembly, likely a wellhead or choke valve, mounted on a red metal frame. The valve is heavily rusted and shows signs of wear. It features a large, rounded body with a flange at the top and a smaller, more complex assembly at the bottom. A black hydraulic cylinder is connected to the side of the valve. The background shows other parts of the rig, including a red cylindrical tank and various pipes and structural elements. The ground is covered in gravel. A watermark "www.PetroRigs.com" is overlaid in the center of the image.
