

A large, yellow industrial machine, likely a component of a drilling rig or crane, is the central focus. It features a complex structure of beams, a large engine or motor housing, and various hydraulic lines. A silver ladder is leaning against the machine, and another ladder is visible to the right. The machine is situated in an outdoor industrial yard with a blue wall and other equipment in the background. The sky is overcast.

DRILLING SYSTEMS

ORANGE, CALIFORNIA 92668

8W506 10/81

A large, yellow industrial machine, possibly a pump or a specialized rig component, is the central focus. It features a prominent, large black flexible hose connected to various mechanical parts. The machine is mounted on a heavy-duty yellow metal frame with a complex X-shaped support structure. The background shows an outdoor industrial or construction site with other equipment, including cranes and a blue structure with red panels. The ground is dirt and concrete. A watermark is overlaid on the image.
