ACCUMULATOR
PRE-CHARGE
9000 PSI MAX

The image shows a yellow industrial accumulator, likely a gas-charged accumulator, mounted on a yellow structure. Two black hydraulic hoses are connected to the top of the accumulator. The hoses have white text: 'PARKER NO-SKIVE 301SN-8 W' and 'SAE100R2KT-9122-100X12-100'. A silver-colored metal fitting is visible on the side of the accumulator. A black cable with a silver-colored metal fitting is connected to the bottom of the accumulator. The background is a yellow metal structure.

The image shows a close-up of a yellow industrial wellhead or valve assembly. The central part is a large, circular black opening. The yellow metal body is secured with several bolts around the perimeter of the opening. Various cables and connectors are attached to the assembly, including red and black wires with pink connectors, and a blue cable with a silver connector. The background is a yellow surface, likely part of the same equipment.

A black, cylindrical industrial component, possibly a valve or wellhead, lies horizontally on a wooden floor. The component has a flange with several bolts at one end. It is surrounded by various items: a yellow pipe, a roll of pink and blue striped material, a black plastic bag, and several pieces of wood and debris. A watermark is visible across the center of the image.
