The image shows a close-up of industrial equipment. A large blue hydraulic cylinder is mounted on a stack of metal plates. Several thick, braided metal hoses are connected to the top of the cylinder. A bundle of thin, light-colored electrical or data cables hangs down from the top right. The equipment is situated in a narrow space between metal beams. The floor is dark and appears to be made of gravel or dirt. A circular metal component is visible in the bottom left corner.

A photograph of industrial machinery on an oil rig. The scene shows a large, blue-painted metal structure with various bolts and pipes. A cylindrical component is mounted on a base plate. The background is a clear blue sky. The floor is dark and appears to be made of dirt or gravel. The overall image has a slightly grainy texture.

A photograph of an industrial site featuring several large blue metal storage containers. A prominent metal staircase with yellow safety railings leads up to a platform on one of the containers. The sun is shining brightly in the sky, creating a lens flare effect. The ground is covered in gravel. A watermark is visible across the center of the image.

The image shows an industrial site with several large blue metal containers or skids. A yellow pipe runs horizontally across the top of the containers. A metal staircase with a wooden handrail is attached to one of the containers. Coils of black cable are hanging from the side of the container. The ground is covered in reddish-brown gravel. The sky is blue with some clouds.

www.PetroRigs.com

The image shows an industrial site with a blue metal container in the foreground. A thick, dark cable is coiled on top of the container. To the right, a large white storage tank is visible. The ground is covered in gravel and sparse vegetation. The sky is blue with some clouds. A watermark is overlaid on the image.

www.PetroRigs.com

A low-angle, upward-looking photograph of an offshore oil rig. The structure is composed of blue-painted steel beams and platforms, with yellow safety railings. A large, rusted metal pipe extends horizontally across the middle of the frame. In the foreground, a thick, dark cable is coiled. The background shows a clear blue sky with some wispy clouds. The overall perspective emphasizes the height and industrial scale of the rig.

www.PetroRigs.com

A photograph of an industrial facility, likely an oil or gas processing plant. The scene features several large, light blue cylindrical storage tanks. In the foreground, a large black cable reel is mounted on a blue metal structure. A rusty metal pipe with a red cap is visible. The ground is covered with dry, yellowish grass. The sky is blue with some white clouds. A watermark is overlaid on the image.

The image shows a perspective view down a narrow, industrial walkway. The walkway is flanked by white-painted metal beams and has a dark, possibly metal grating floor. On the left side, there are yellow safety railings. The structure is supported by a complex network of heavy, weathered steel beams and girders, some of which are painted blue. At the end of the walkway, a large, tan-colored metal container or storage unit is visible. The scene is brightly lit, suggesting an outdoor or well-lit industrial environment. A watermark is centered over the middle of the image.

www.PetroRigs.com

www.PetroRigs.com

The image shows a blue industrial electrical control cabinet, likely for an oil or gas rig. It features yellow safety railings and a yellow ladder. Two warning labels are visible on the front panel: one with 'NOTICE' and 'DANGER HIGH VOLTAGE' text, and another with 'NOTICE' and 'DANGER NO SMOKING' text. The cabinet is situated outdoors on a metal platform, with other industrial equipment and a grassy field in the background.

A photograph of a row of blue industrial containers, likely part of an oil rig's infrastructure. The containers are situated outdoors on a gravel surface. In the foreground, a large blue metal frame or platform is visible, resting on wooden logs. The background shows more containers and a clear blue sky with some clouds. The sun is visible in the upper right corner, creating a lens flare effect.
