A photograph of a cluttered storage area, possibly a workshop or a storage room. The scene is filled with various items: shelves in the background hold boxes, containers, and bags; the floor is covered with more boxes, a large orange heater, a metal bucket, and other miscellaneous objects. A large white plastic bag hangs on the left side. The overall impression is one of disorganization and cramped quarters.

www.petrorigs.com

www.petrorigs.com

www.petrorigs.com

A close-up photograph of a light blue metal surface, possibly a door or panel. A rectangular label with a light blue background and dark blue text is affixed to the surface. The text on the label is "www.petrorigs.com". Below the label, there is a metal frame or handle structure, also painted light blue, which appears to be made of metal rods and bolts. The surface shows signs of wear, including scratches and some discoloration.

www.petrorigs.com

A photograph of an industrial site. On the left, there are several large white cylindrical storage tanks on a gravel lot. In the center, a small white utility box sits on a patch of reddish-brown earth. To the right, a white shipping container is partially visible. The background shows a line of bare trees under a blue sky with scattered clouds. A long shadow is cast across the foreground gravel.

The image shows an outdoor industrial site, likely an oil or gas field. In the foreground, two metal cages with mesh sides and wheels are positioned on a dirt path. The cage on the left is slightly larger and has a dark base. The cage on the right is smaller and has a yellow base. In the background, a drilling rig is visible on the left, and a white container with a green chimney is in the center. The ground is dry and dusty, and the sky is clear and blue.

www.petrorigs.com

The image shows a large, weathered metal container, possibly a truck bed or a storage bin, filled with various industrial components. In the foreground, several large, light-colored pipes are visible, some with flanges. A coiled metal hose or cable is also present. The container is situated outdoors on a dirt or gravel surface. In the background, there is a clear blue sky with some light clouds. To the left, industrial structures, including a tall vertical pipe and some scaffolding, are visible. To the right, there are some dry, leafless trees and a fence line. The overall scene suggests an industrial or construction site.

www.petrorigs.com

www.petrorigs.com

A photograph of an oil drilling rig at sunset. The rig is a tall, complex structure with a lattice boom and various platforms. It is situated on a gravel pad. In the background, there are other industrial structures, including a large red storage tank on the left and a white storage tank on the right. The sky is a deep blue with some clouds, and the sun is low on the horizon, creating a bright glow and lens flare effects. The overall scene is industrial and captures a moment of late-day activity in an oil field.

www.petrorigs.com

www.petrorigs.com

www.petrorigs.com

An oil drilling rig is the central focus, featuring a tall derrick and a concrete base. A yellow tractor is parked in front of the rig. The ground is muddy with several puddles. A blue sky with some clouds is in the background. A large white container is on the left. The sun is bright on the right side of the image.

www.petrorigs.com

A photograph of an industrial site, possibly a refinery or chemical plant. On the left, a large, multi-story building with a complex facade is visible. In the center, there's a tall, cylindrical silo or storage tank. The ground is muddy and covered with numerous puddles, reflecting the bright sunlight. The sky is clear and blue, with the sun positioned high, creating a strong lens flare effect across the image. A watermark URL is centered over the middle of the image.

The image shows an offshore oil rig platform. A prominent red metal ramp with a mesh surface extends from the foreground towards the platform. To the left, a red vertical support structure is visible. In the background, a white structure with yellow safety railings and stairs is part of the rig. The ground is covered in gravel. A large coiled black hose lies on the left. The scene is brightly lit under a clear blue sky.

www.petrorigs.com

www.petrorigs.com

A large red cable reel, mounted on a white metal stand, is the central focus of the image. The reel is filled with thick black cable. To the left, a complex industrial structure with multiple levels and yellow stairs is visible. In the background, a red MANITOU telehandler is parked on a gravel lot under a clear blue sky. The website address www.petrorigs.com is overlaid in white text across the middle of the image.

www.petrorigs.com

A photograph of an offshore oil rig platform. The structure is made of metal and has several levels with yellow railings. A large black pipe or hose runs diagonally across the middle of the frame. In the foreground, there is a metal frame structure. To the right, there is a red cylindrical tank and a white container. The background shows a clear blue sky and some distant land with trees.

www.petrorigs.com

A portable generator on a trailer is positioned in an industrial setting. The generator is a light-colored metal box with a large red exhaust pipe on the left side. It has a single black tire on the right side. The background shows a large industrial structure with scaffolding and a bright sun creating a lens flare. A large coil of white material is on the ground to the left. The website address www.petrorigs.com is overlaid in white text across the center of the image.

The image shows a large industrial facility, likely a refinery or chemical plant, with several large pieces of machinery. In the foreground, there is a large, grey, rectangular unit with four brown, gridded doors, mounted on a heavy metal base. To its right, another similar unit is visible, also on a metal base. In the background, a complex arrangement of pipes, valves, and mechanical components is visible, including a large cylindrical tank. The floor is made of light-colored concrete, and the ceiling has exposed pipes and a hanging light fixture. A watermark is overlaid on the center of the image.

The image shows a close-up view of industrial wellhead equipment. In the foreground, there are two large, white, rectangular control boxes or skids. Between and around them is a complex network of red-painted metal pipes and valves. The valves have large, circular handwheels. The equipment is mounted on a metal platform with a perforated surface. In the background, more industrial structures and a clear blue sky are visible. A watermark is overlaid on the center of the image.

www.petrorigs.com

The image shows a close-up view of an offshore oil rig platform. In the center, there is a large, vertical, cylindrical structure, possibly a wellhead or a storage tank, which is partially covered by a light-colored, weathered tarp. The platform is surrounded by yellow safety railings and white structural beams. A set of stairs with yellow railings leads up to the platform. The ground is dark and appears to be covered in gravel or sand. A black hose or cable runs across the foreground. The overall scene is industrial and suggests a remote location.

www.petrorigs.com

www.petrorigs.com

A photograph of an industrial facility, likely an oil or gas wellhead. In the foreground, a metal walkway with yellow railings leads towards the background. The walkway floor is made of metal grating and has several circular manhole covers. To the right of the walkway, there are various pipes, valves, and a large horizontal black cylinder. In the background, there are two large white storage tanks. The sky is clear and blue, and the ground is dry and brown. A watermark is visible in the center of the image.

www.petrorigs.com

www.petrorigs.com

A photograph of an offshore oil rig deck under a clear blue sky. In the background, a large derrick structure is visible, featuring a yellow safety cage and a set of stairs. The foreground is filled with complex machinery, including white and red valves, pipes, and a red fire extinguisher. A yellow safety railing is on the left, and a green light fixture is mounted on a pole. The overall scene depicts a busy industrial environment.

www.petrorigs.com

A photograph of an offshore oil rig deck. The deck is cluttered with various pieces of equipment, including large pipes, valves, and a green storage container on the left. A yellow safety railing runs along the edge of the deck. In the background, a red cylindrical tank is visible against a clear blue sky. A shower head hangs from a chain in the upper right corner. The overall scene depicts a busy industrial environment at sea.

www.petrorigs.com

www.petrorigs.com

The image shows an industrial wellhead or manifold. In the foreground, there are yellow safety railings. Behind them, a series of red valves or actuators are mounted on a horizontal pipe. The pipes are weathered and show signs of rust. In the background, there is a white storage container, a yellow excavator, and a line of bare trees under a clear blue sky. The overall scene is an outdoor industrial site.

www.petrorigs.com

www.petrorigs.com

www.petrorigs.com

The image shows a piece of industrial machinery, possibly a pump or compressor, with a green-painted metal frame. The frame has several vertical supports and a large, dark, cylindrical component on top. A control panel with two red buttons and a digital display is mounted on the right side of the frame. A large, black, hand-cranked wheel is visible at the bottom right. The machinery is situated outdoors, with a red vertical pipe and other industrial structures in the background. A white vertical pole is in the foreground, partially obscuring the view. The text "www.petrorigs.com" is overlaid in the center of the image.

www.petrorigs.com

The image shows an industrial oilfield platform. In the foreground, there is a metal walkway with yellow safety railings. To the right, a large red cylindrical storage tank is visible, connected to various pipes. The platform is equipped with several work lights mounted on a metal frame. The background shows a clear blue sky and some distant trees. The website address www.petrorigs.com is overlaid in the center of the image.

www.petrorigs.com

The image shows a complex industrial setup, likely a wellhead or production platform, featuring a series of red-painted valves and pipes. These components are arranged in a row on a platform with a yellow safety railing. Large, flexible black hoses are connected to the system. The background shows a construction or industrial site with various materials and equipment.

www.petrorigs.com

A photograph of a complex industrial wellhead or pumpjack system installed in a mine. The machinery is mounted on a heavy metal frame and is surrounded by a network of steel beams and supports. A person is visible on a platform above the machinery. The scene is dimly lit, with bright light coming from the left side, possibly from a mine entrance. The floor is wet and reflective. The text "www.petrorigs.com" is overlaid in the center of the image.

This aerial photograph shows a large industrial storage yard, likely for oilfield equipment. In the foreground, a large, rectangular pile of dark, weathered steel pipes is neatly stacked. A bright yellow metal structure, possibly part of a crane or conveyor system, is visible at the bottom of the frame. To the left of the pipe pile, an orange aerial lift is parked. In the background, there are several white trailers, a few vehicles, and a tall white lattice tower. The surrounding landscape is flat and appears to be a mix of dirt and sparse vegetation.

www.petrorigs.com

A photograph of an offshore oil rig. In the foreground, there is a large, white, cylindrical piece of machinery, possibly a separator or a storage tank, mounted on a metal frame. To the left, a yellow ladder or walkway is visible. In the background, more rig structures and a clear blue sky are visible. The overall scene is industrial and brightly lit.
