A photograph of an offshore oil rig structure, showing a complex network of white-painted steel beams and yellow-painted support legs. The rig is situated on a sandy, sparsely vegetated ground. In the foreground, there is a yellow metal frame with a central section of diamond-plate metal grating. To the right, there are large, dark, rectangular objects, possibly part of the rig's machinery or storage. The background shows more of the rig's structure extending into the distance under a cloudy sky. A watermark is visible in the center of the image.

A photograph of an offshore oil rig structure. The foreground shows a white lattice framework with thick steel cables. In the background, a green cylindrical storage tank is visible, surrounded by a blue metal railing. The ground is sandy with sparse green vegetation. A watermark is centered over the image.

A photograph showing a close-up view of a white metal lattice structure, likely part of an oil rig. The structure consists of numerous vertical and diagonal beams. In the background, yellow equipment is visible. A thick, dark rope hangs vertically in the center. On the left and right sides, there are large, dark metal pulleys or sheaves. The ground is sandy and uneven. A watermark is overlaid in the center of the image.

The image shows a large, yellow industrial engine, likely a diesel generator, mounted on a metal frame. The engine has a complex arrangement of pipes, hoses, and electrical wiring. A control panel with several gauges is visible on the left side of the engine. A large, yellow, rectangular enclosure is attached to the right side. In the foreground, there are two large green cylindrical storage tanks. The background shows a clear blue sky and some industrial structures.

The image shows an industrial setting with two electric motors mounted on a metal platform. The motor on the left is blue, and the one on the right is green. Both are connected to a network of green-painted pipes and valves. The platform has a diamond-plate metal floor. In the background, there are more industrial structures, including a yellow crane and a green machine with a 'CAUTION' label. The overall scene suggests a maintenance or operational area in an oil or gas field.

A photograph of a cluttered workshop or storage area. In the foreground, a large metal tray is filled with numerous small, rusty mechanical parts, including bolts and nuts. Above the tray, various items are hanging on the wall, including coiled hoses and cables. To the right, there are more mechanical components and a large metal drum. The overall scene is one of disarray and industrial storage.

www.petrorigs.com

A photograph of a cluttered workshop or storage area. Two white shelves are mounted on a wall. The top shelf holds a large white container, a blue ring, a power tool, and other miscellaneous items. The bottom shelf is filled with various objects, including a green container, a blue bag, and some papers. In the foreground, there are several large white containers and a blue bucket. The overall scene is dimly lit and appears to be a storage or work area.

www.petrorigs.com

The image shows a cluttered workshop or storage area. On the left, there are white metal structures, possibly part of a larger machine or shelving unit. In the center, there are several buckets and containers, some of which are filled with small, dark, cylindrical objects. To the right, there are more containers, including a large white jug and a blue bucket. A large, coiled metal hose or pipe is visible on the far right. The floor is dark and appears to be covered in dirt or debris. The overall scene suggests a workspace for industrial or mechanical work.

www.petrorigs.com

A photograph of a cluttered workshop or storage area. In the foreground, a large, open wooden crate is filled with numerous small, cylindrical metal parts, possibly bolts or nuts. To the left, a large, white, rectangular object, possibly a piece of equipment or a container, is partially visible. In the background, there are various tools, materials, and equipment, including a coiled black hose, a red container, and a blue bucket. The overall scene is dimly lit and appears to be a storage or work area for industrial or mechanical parts.
