A large, yellow industrial motor or generator is shown in a workshop setting. The machine is cylindrical with a large circular end face featuring a central shaft and a flange. The surface is covered in numerous bolts and has a textured, slightly weathered appearance. The background shows a concrete floor, some cables, and a white wall with a door.

A large, yellow industrial motor is the central focus, resting on a wooden pallet. The motor has a cylindrical body with a flat top section and a cooling fan on the right side. It is surrounded by other similar motors in a warehouse setting. The floor is concrete, and there are some cables and a control panel visible on the left. The text 'www.PetroRigs.com' is overlaid in the center of the image.
