A large, circular, red-painted metal component, likely a wellhead or valve assembly, is shown. It is mounted on a blue-painted metal frame. The red component has a central opening and several smaller holes around its perimeter. Inside the red component, there are various mechanical parts, including a blue solenoid valve with a logo, a spring, and several black corrugated hoses. A red metal ring is visible at the bottom of the central opening. The background shows a wooden surface and some other industrial equipment.
