

A close-up photograph of a piece of heavy industrial machinery, likely a drilling rig. The machine is painted orange and features a large, rectangular panel with a dense grid of small circular perforations. Various hydraulic components, including hoses, pipes, and a red hydraulic cylinder, are visible. The machine is mounted on a blue metal frame. The background shows a grey corrugated metal wall and a cloudy sky.

A photograph of a complex hydraulic system, likely part of a piece of heavy machinery. The system features several large blue hydraulic cylinders and a dense network of black and white hoses. The hoses are connected to various fittings and valves. In the background, a yellow piece of machinery is visible. The ground is covered in gravel. A watermark is overlaid on the image.

A close-up photograph of the hydraulic system of a yellow excavator. The image shows a complex arrangement of black hydraulic hoses, some with red stripes, connected to various valves and fittings. A prominent yellow hydraulic cylinder is visible on the right side. The system is mounted on a blue structural frame. The background shows a sandy or gravelly surface.

The image shows a close-up of industrial equipment. Two large, thick black cables are coiled and hang from the top. In the center, there is a blue cylindrical component with a metal handle and a circular opening. The equipment is mounted on a white metal platform with a diamond-plate texture. The background is a gravel surface. A watermark is visible across the center of the image.

The image shows a close-up, slightly blurred view of industrial machinery. The machine features a prominent blue frame and various orange components, including a large orange rectangular plate in the center and orange piping on the right. Numerous black cables and hoses are visible, some bundled together. The background is filled with more mechanical parts and wiring. A white watermark is centered over the image.

www.petrorigs.com

A photograph of industrial equipment, likely a hydraulic system, featuring a blue main unit with various hoses, valves, and actuators. In the foreground, there are two orange components: a rectangular block on the left and a textured plate on the right. The background shows more industrial structures and a cloudy sky.
