A large, red industrial rig, likely a gas processing or storage unit, is shown outdoors on a grassy field. The rig consists of a heavy metal frame supporting several vertical, red-painted cylindrical tanks. The tanks are arranged in a row, and the rig is connected to various pipes and valves. In the background, there is a white building with corrugated metal siding, a yellow container, and a white truck. The sky is clear and blue.

A photograph of an industrial gas processing rig. The rig features a series of vertical red gas cylinders mounted on a metal frame. To the right, there is a complex assembly of pipes, valves, and a control panel. The background shows a grassy field and a white industrial container under a clear sky. The website address 'www.PetroRigs.com' is overlaid in white text across the center of the image.
