

An aerial photograph of an oil drilling rig site. The rig is a tall, white lattice structure with a red top section, mounted on a green and blue base. It is surrounded by various pieces of equipment, including a large green and yellow machine, a blue and white machine, and a red and white machine. There are several white and blue containers, a red container, and a white truck with a crane. The site is located in a flat, open area with sparse vegetation and a dirt road. The text "www.PetroRigs.com" is overlaid in the center of the image.

A large white corrugated metal container is being hoisted by a crane. The container is suspended by several cables and is being lowered onto a blue flatbed trailer. The trailer is parked on a dirt surface. In the background, there is a yellow truck and a clear blue sky. The text 'www.PetroRigs.com' is overlaid in the center of the image.

A large green industrial component, possibly a wellhead or valve manifold, is being lifted by a yellow crane with red slings. The component is mounted on a truck. Three workers in dark clothing are visible in the foreground, observing the operation. The scene is set in a flat, open field under a blue sky with scattered clouds. A watermark is overlaid on the image.

A large green industrial container, possibly a skid-mounted unit, is the central focus. It features several horizontal pipes of varying diameters extending from its side. The container is supported by a metal frame with a tire visible underneath. To the right, a red barrel stands upright. In the foreground, a blue toolbox and a yellow tool are on the ground. The background shows a flat, open area under a cloudy sky.
