A large, green industrial machine, possibly a generator or engine, is being lifted by four heavy chains from a truck. The machine is mounted on a blue metal frame. It has a large, curved green pipe on the right side and three circular openings on the front. The number '10' is written on the side of the machine. Two workers are visible: one on the left in a striped shirt and dark pants, and another on the right in a grey jacket and hat. The background shows a clear blue sky and other industrial equipment.
