A close-up photograph of a blue industrial machine, likely a part of an oil rig. The machine features a central, dark, textured component with a grid-like pattern. The surrounding structure is painted blue and includes various bolts and mechanical parts. The foreground shows a red, weathered surface, possibly a platform or deck. The text "www.PetroRigs.com" is overlaid in the center.

The image shows two large, blue industrial valves standing side-by-side on a wooden pallet in a warehouse. Each valve has a vertical stem with a circular handle at the top. The valves are complex, with various ports and a sturdy base. In the background, there are several large red vertical tanks and other industrial equipment. A green pallet jack is visible on the right side of the pallet. The warehouse has a high ceiling with a corrugated metal roof and concrete floors.

A close-up photograph of a blue industrial machine, possibly a pump or valve. The machine has a textured, cast metal appearance. In the center, there is a rectangular plate with raised, embossed characters that appear to be '11-17'. Above this plate, the number '36011' is also embossed. A curved blue pipe or hose is connected to the left side of the machine. The background is a plain, light-colored surface.
